CONTENTS

Subjects ..... S-1 - S-139
Names ..... N-1 - N-82
Editorials ..... E-1 - E-7
Obituaries ..... O-1 - O-15
Public officials, boards and commissions ..... O-1 - O-4

How to use this index

Scope

The index focuses primarily on local and area news. State news is generally also included.

- Traffic accidents, minor crimes and court proceedings are omitted, except for items of unusual significance.
- Book reviews are only included if the books are by Indiana authors or about Indiana.
- Motion picture reviews are included.
- "Action Line" queries and social club announcements (with the exception of officer lists) are not included.

In the **Subject Index,** governmental agencies are listed under the name of the unit to which they are attached: Fort Wayne departments are listed under "Fort Wayne"; Allen County offices are listed alphabetically under "Allen County"; combined city-county units are found under the key words of the name.

The **Name Index** is arranged alphabetically according to personal names as they appeared in the newspaper. We have also provided the occupation or office held by the individual if such information was available in the news article.

The Editorial Index is in two parts. Part I lists in chronological order the subjects of the editorials with local issues, appearing under the **Local and State Issues** heading. Part II is a listing of editorials concerning prominent people.

The **Obituaries Index** includes the date of death as reported as well as reference to the date and page number of publication in the newspaper.

We again include the **Directory of Public Officials** because news articles often refer to board or commission actions without naming the members of the board. We have included the term of office of each official and, if available, the party affiliation. We have also listed appointing "agency" if more than one is involved.

Format

The format remains basically the same as in the previous indexes. There are four major index sections: subject, name, editorial, obituaries. Under any one subject or name, entries are listed chronologically. Each entry provides the date of publication, page and section numbers and the headline under which the article appeared.

Any photographs, illustrations, maps or charts which accompanied an article are indicated in the Index. Items that are editorials, editorial cartoons, letters to the editor or essays are so noted.

Abbreviations and high school team names

A list of abbreviations and of high school team names follows this introduction.

Acknowledgements

We wish to thank **The Journal-Gazette** for encouraging and promoting our indexing project. Our particular gratitude goes to Richard G. Inskeep, publisher; Roger L. Mosher, associate editor; and Rosalina Stier, librarian. In addition, we would like to thank Bonnie Byanskie, and Lisa Weikel, Reference Assistants at IU-Purdue, for assisting us with the obituaries indexing.

JUDITH VIOLETTE
PAULINE HUNSBERGER

Abbreviations

No periods are used after these abbreviations when used in descriptive information. Periods are used after initials and titles in names. Headlines are presented as they were printed in the newspaper.
